DIRECTIONS FOR USE

For best results apply in sunny, warm weather to actively growing young weeds less than 10 cm tall. No dilution or mixing is required.

For most applications, use a coarse spray to wet only unwanted foliage. Complete coverage is necessary for best results.

To control top growth of dandelion and plantain in lawns, use a coarse spray and contact only the weed. Hold the container close to the weeds. Control the spray pattern so that only the centre of the weed is contacted. Grass that is sprayed will also be burnt but regrowth will occur.

Weeds that are mature, dormant or hardened due to moisture stress tend to be more tolerant to herbicide treatments. Retreatment of large weeds and regrowth of perennial weeds may be required.

Only vegetation that is contacted will be controlled.

DO NOT contaminate irrigation or drinking water supplies or aquatic habitats by cleaning of equipment or disposal of wastes.

READY TO USE, FAST ACTING:

This is a fast acting product for non-selective vegetation control and spot treatment of individual weeds. Visible effects occur after treatment, and actively growing susceptible weeds are controlled within 1-2 days. Leaves no harmful residue in the soil.

Munger Horticultural Vinegar HS is recommended for control of undesirable plants in and around the garden, on patios, sidewalks, driveways, under fences and around established trees and shrubs. Use to edge along driveways, sidewalks and to control weeds in gravel and mulch.

Munger Horticultural Vinegar HS application results in rapid burndown and control of the following annual weeds: common ragweed, chickweed, black medic and lamb's-quarters and topgrowth control of the following perennial weeds: dandelion, plantain (broadleaved and narrowleaved), wild carrot and quackgrass.

CAUTION. Avoid contact on desirable plants. Overspray or drift will injure contacted vegetation.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN. Corrosive to the eye. **DO NOT** get in eye. Avoid contact with skin and clothing. Wash immediately after use. Avoid all contact with desirable plants. Overspray or drift will injure contacted foliage. Avoid application to reactive metals such as aluminum, tin, iron, or items such as fencing or lawn furniture in order to prevent staining, mottling, or otherwise interfering with finished metal surfaces. **WEAR SAFETY GOGGLES OR A FACE SHIELD** during loading and application. Avoid spraying on windy days. Avoid inhaling vapour or spray mist.

DO NOT re-enter or allow entry into the treated area until dry.

FIRST AID

If swallowed: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take the container label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION

Treat symptomatically.

STORAGE

To prevent contamination store this product away from food or feed. Keep from freezing. Store in original container out of reach of children.

DISPOSAL

DO NOT reuse the empty containers. Dispose in household garbage. Unused or partially used products should be disposed at provincially or municipally designated hazardous waste disposal sites.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
